Notice Regarding 2026 Property Tax Levy Correction

The Meeker County Property Records Department has identified an error in the tax calculation process that resulted in an incorrect levy amount being charged to Grove City residents on their 2026 property tax statements. In accordance with Minnesota Statutes, Section 275.075, and other applicable statutory provisions, Meeker County is taking steps to correct this error.

To address the resulting revenue shortfall to the City of Grove City, Meeker County intends to certify an additional amount attributable to the under-collection in 2026. Subject to applicable statutory requirements, this adjustment will be reflected on affected properties' 2027 property tax statements.

How This Will Impact Taxpayers

The original levy amount was intended to be collected over the 2026 property tax years. However, due to the calculation error, a portion of the amount that should have been collected in 2026 was not included in the 2026 property tax statements.

As a result, affected property owners will see the outstanding 2026 amount added to their 2027 tax obligation as a separate special assessment/charge, in addition to their regular 2027 property taxes.

Essentially, affected taxpayers will be responsible for both the outstanding amount that should have been collected in 2026 and their regular 2027 property tax obligation. This will result in an additional charge on their 2027 property tax statements.

Our Apology

Meeker County sincerely apologizes for this error and for the inconvenience and unexpected financial impact it may have on Grove City property owners. We understand that residents rely on accurate property tax statements to plan and budget for their expenses. We regret that this error occurred and recognize the frustration this additional charge may cause.

We are committed to correcting the error and taking steps to help prevent similar issues from occurring in the future. We appreciate the patience and understanding of Grove City residents as we work through this correction.
